† We strongly recommend any products given to minors include parental and healthcare provider involvement. Product appropriateness may depend upon the individual's weight, maturity, sports involvement and other factors.

* These are general guidelines for age, pregnancy and nursing product appropriateness. They are not intended as a substitute for the recommendation of your healthcare professional. Consult your healthcare provider with any questions.

CorePlex[®] Multiple Vitamin and Mineral Supplement and V100 Multiple Vitamin and Mineral Supplements do not constitute complete prenatal vitamins since they do not contain iron.

**2 CorePlex[®] Chewable Multivitamin and Mineral Chewable Supplement does not constitute a suitable prenatal vitamin.

** Caffeine during pregnancy and nursing: it is generally accepted to consume less than 200mg per day; follow the specific recommendation of your healthcare provider.

**2 Turmeric may act as a uterine stimulant when consumed in larger quantities.

† We strongly recommend any products given to minors include parental and healthcare provider involvement. Product appropriateness may depend upon the individual's weight, maturity, sports involvement and other factors.
